

Creator Payments Workflow Management

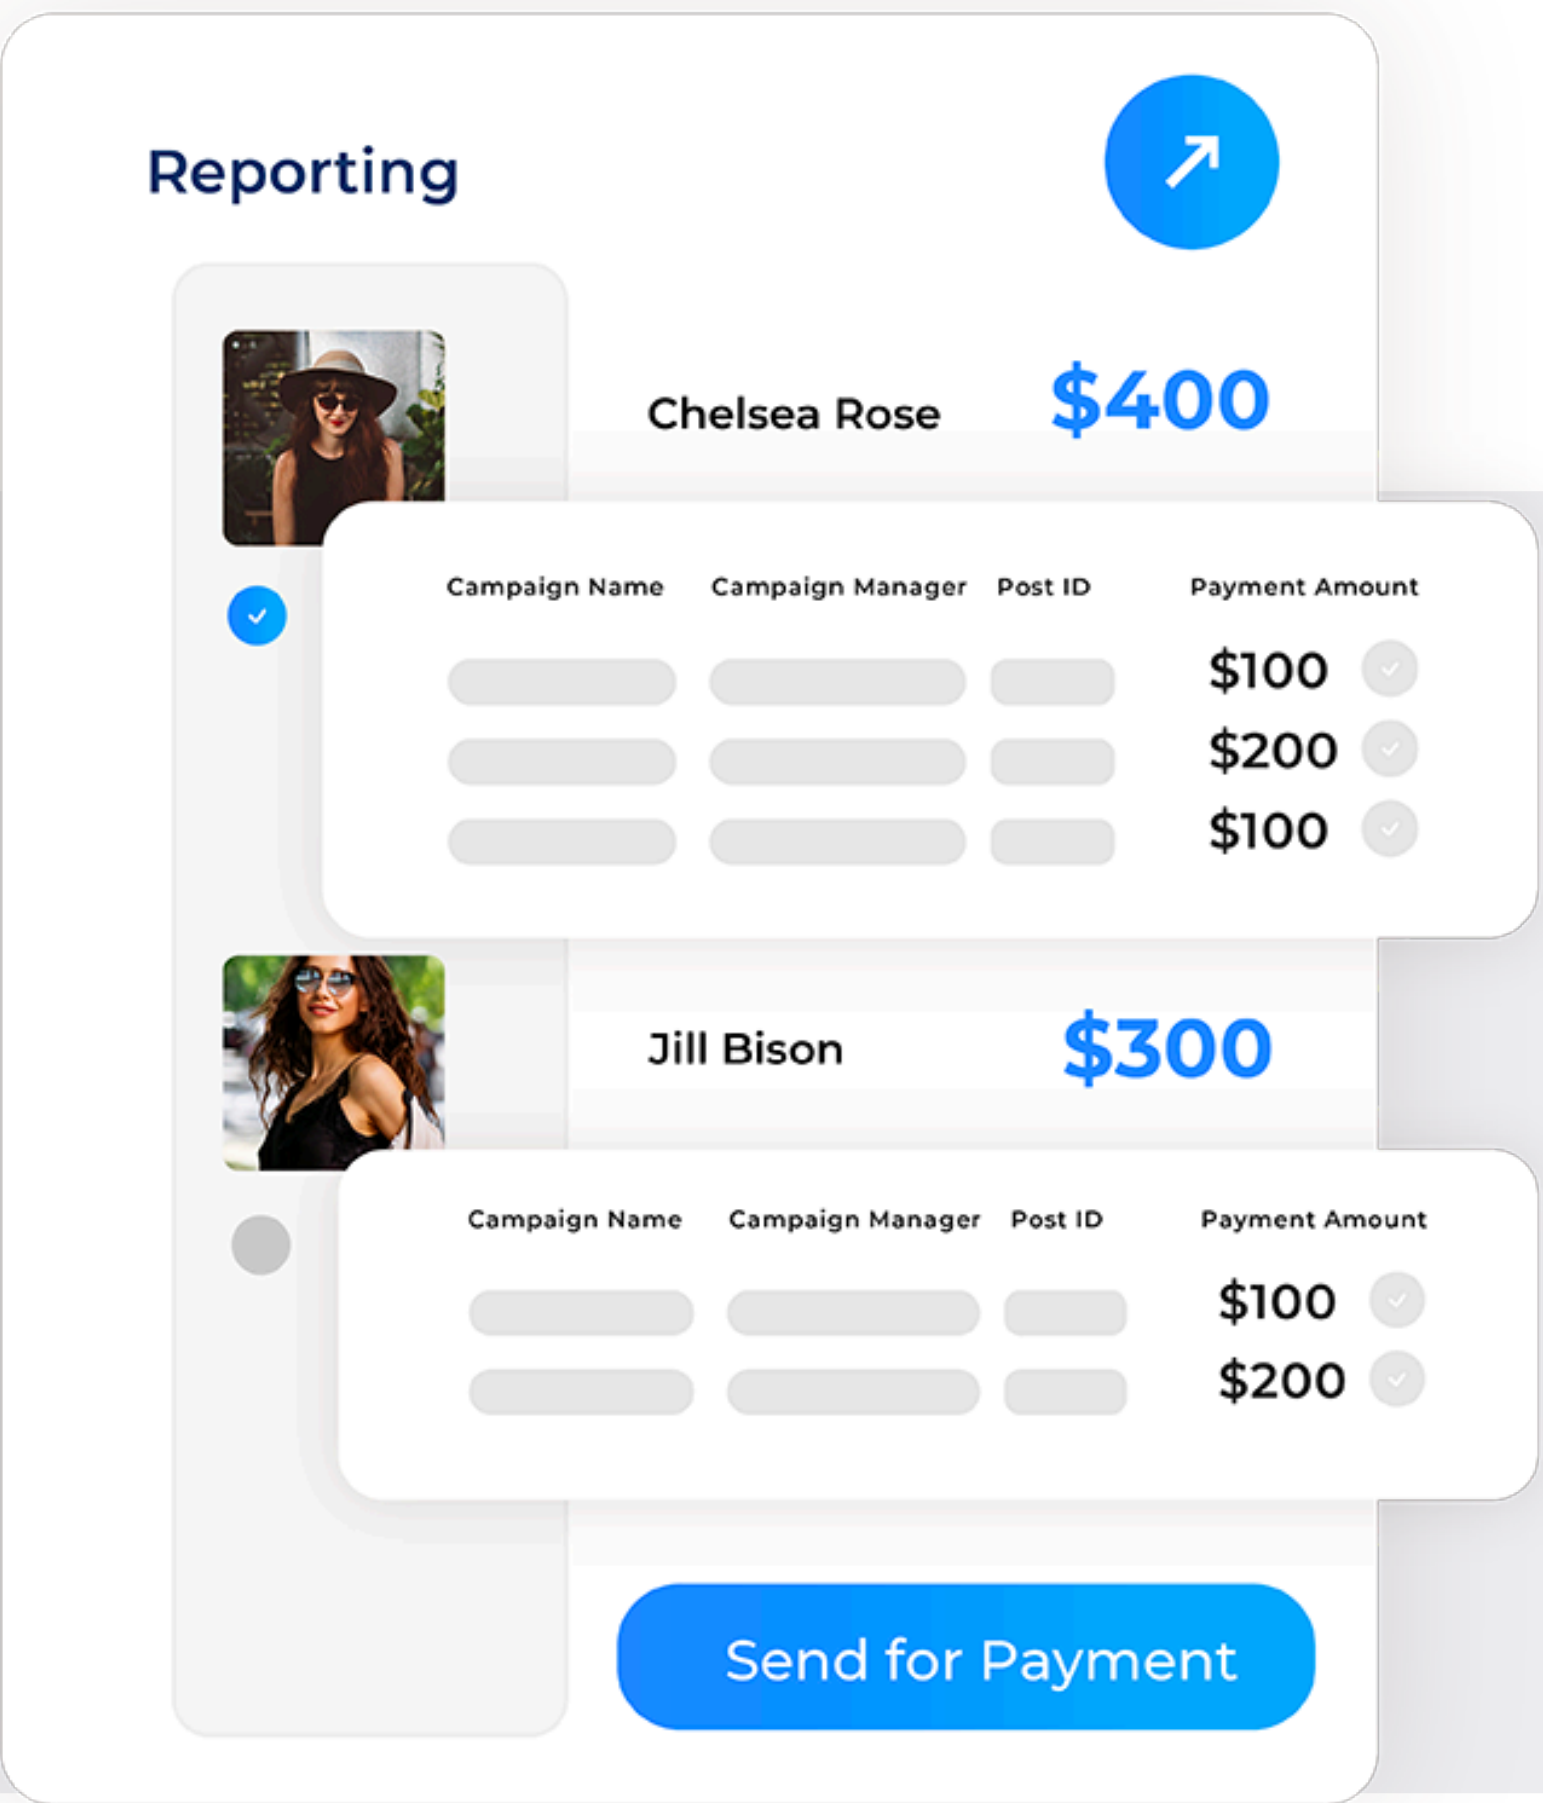

Seamlessly manage and track outside payments

Do you have an existing payment provider, but struggle with these common workflow challenges?

Acting as a middleman between your finance department and creators

Lack of visibility into the payment process, status, and timelines

Missing key payments information due to disparate data

Adopt a Unified Workflow

Effectively manage all payment requirements & track statuses in-platform

Easily Handoff Payables

Download all payment instructions from CreatorIQ to process in your ERP system

Maintain Creator Visibility

Let creators easily fulfill posting requirements tied to compensation and view their payment status

Centralize Record Keeping

Send transaction files back to CreatorIQ to update payment status, maintain payment records, & better measure ROI

Save time and gain visibility into payments while using your existing payments solution.
